THE
SOUTHSIDE
BUILDING

CONNECT WITH CONFIDENCE

As a WiredScore Gold certified building we understand the importance of having fast and reliable internet connectivity for your business. Offering one of the best digital infrastructures in the UK with enhanced connectivity, there are a number of benefits that ensure your business will thrive in a digital dominated world.

FIBER CONNECTIVITY

Direct fiber connectivity is ready to provide dedicated high speed digital connectivity throughout our building.

FIXED WIRELESS READY

Fixed wireless connectivity is also available, delivering over-the-air high-speed internet to occupiers.

RESILIENT & SECURE

Our enhanced digital infrastructure ensure that your connectivity is always protected and secure, reducing the risk of interruption.

DIGITAL CONCIERGE SERVICE

Access WiredScore Connect, a complementary digital concierge service that helps you review and select the right package for your business's digital demands.

CHOICE OF PROVIDERS

A choice of five high-speed internet providers are available, giving you the flexibility to choose the right connectivity package for your business.

COMPETITIVE SERVICE RATES

Benefit from competitive service rates across a range of internet service providers and packages, ensuring you get the best deal available.

REDUCED INSTALLATION TIME

With faster set up and installation times in comparison to other providers, occupiers can confidently move in and hit the ground running.

FUTURE PROOF

Our best-in-class digital infrastructure is fully equipped to keep pace with advanced digital and technology innovations for years to come.

FREE COMMUNAL WIFI

All communal areas throughout the building provide complimentary WIFI, allowing you and your guests to connect instantly upon arrival.
